## Mac Air Is Good For Games

Why the MacBook Air Is a Good Student Laptop Great Value (for a Mac): Most students and their families aren't sweating 100 bills while they bask in the sun.. For example, the 2.68-pound Asus UX330UA costs just 699, 100 less than the best sale price for a MacBook Air, but it comes with a 1080p screen, a 256GB SSD and the latest 7th Gen Core i5 processor.. Apple hasn't introduced a new model in two years, and it killed off the 11-inch Air in 2016.. Air Is Good For Games? Portable Laptop And However, as long as the MacBook Air remains available, it's a worthwhile choice for high school and college students.. Regular USB Ports: Nobody likes carrying dongles with them everywhere they go, especially not students.. 6.8 inches thick and 2.96 pounds When you have to fit your laptop into a backpack that's filled with heavy books, you don't want it weighing you down.. Lackluster Screen: The 1440 x 900 display on the MacBook Air isn't as sharp as those on other MacBooks and competing PCs.

The entry-level Air carries a 999 MSRP, but you can easily find it for 899 at third-party retailers, or even 799 on sale.. If you want an Apple laptop, and you don't want to spend at least 1,299 for a 12-inch MacBook or 13-inch MacBook Pro, the Air is your only choice.. 5mm of vertical space below each key, compared with a more-reasonable 1mm on the Air.. Air Is Good For Games? Portable Laptop And Its endurance is 6 hours longer than the average ultraportable laptop and way ahead of the MacBook 12-inch (9:38), the MacBook Pro 13-inch (9:50) and the MacBook Pro 15-inch (10:32).. Best MacBook Keyboard: Whether they're taking notes or writing a term paper, students have to do a lot of typing.. So, if you need to pop in a flash drive, attach an external hard drive or use a wireless mouse that has a dongle, you'll really appreciate the Air's pair of standard USB ports.

However, you probably will want to pay another 200 for a configuration with a 256GB SSD, rather than the 128GB you get on the base model.. The MacBook Air is the only MacBook with regular USB 3.0 ports, the most common type.. Some PCs Offer Better Value: If you don't have your heart set on a MacBook, you can find a more powerful PC ultraportable for around the same price as the Air.. The MacBook Air lasted an amazing 14 hours on a charge during the Laptop Mag Battery Test, which involves continuous surfing over Wi-Fi.. The MacBook Pro and the MacBook 12-inch have shallow butterfly keyboards that offer a measly 0.. The company could phase out the 13-inch laptop in the not-too-distant future in favor of the thinner and more expensive 12-inch MacBook.. Epic Battery Life: Students need a laptop they can carry around campus all day long, without needing to recharge.. Only a handful of PC laptops offer 14 hours of battery life or more Thin and Light: While the MacBook 12-inch and some PC notebooks are even svelter, the MacBook Air is still one of the more portable notebooks on the market, at just 0.
